

# Dust collection

**B**assett Mechanical is known as the industry leader when it comes to dust and fume collection. In fact, we've designed, fabricated and installed extensive collection systems at foundries statewide, so you can count on our expert team to conquer even the toughest problems. Plus, if the job involves sheet metal fabrication, installation or custom design, we can tackle that, too.

## Bassett Mechanical helps you with dust and fume collection

- System sizing
- Work with close-capture collection
- Cooling lines
- Duct sizing
- Velocities and efficiencies
- Modern equipment for custom metal work

## Our Experience Counts!

- More than 60 years experience
- Total engineering capabilities

## We also provide

- Specialty fabrication
- Heating, ventilating and air conditioning for industrial and administrative areas
- Pollution control
- "Man" cooling — focusing fresh air where it's needed most
- Systems design and evaluation
