

We measure you®

Service and maintenance programs

Would you like your entire facility to operate more cost effectively and efficiently? Whether you need complete facility management, or professional service management (PSM), Bassett Mechanical is there for you. We provide a complete program to assist companies with their entire mechanical systems – top to bottom, inside and out. Bassett has assisted a variety of companies in making significant reductions in their operational costs, which allows them to be more profitable and competitive. We can add dollars to your bottom line by being proactive instead of reactive!

Bassett Mechanical serves all of your service & maintenance needs

- Chillers
- Refrigeration systems
- Building analysis
- DDC, pneumatic and electronic controls
- HVAC systems
- Water treatment systems
- System integrity evaluation

Preventive maintenance program includes

- Regular inspections and evaluations
- Cleaning
- Adjustments
- Component replacement or repair
- Ability to budget consistent, monthly costs
