

BASSETT 4 SIGHT

PERFORMANCE-BASED ASSET MANAGEMENT

Bassett4Sight is a cutting-edge performance-based asset management tool that revolutionizes how organizations oversee and optimize their assets. With its sophisticated features, this tool offers real-time insights into performance, enabling businesses to make data-driven decisions. The platform's user-friendly interface makes it easy for organizations to track and manage assets seamlessly.

24/7 MONITORING

Unparalleled peace of mind with its 24/7 monitoring capabilities, ensuring constant surveillance and instant alerts for any potential issues.

DATA-DRIVEN PREVENTATIVE MAINTENANCE

Enables us to offer data-driven preventive maintenance (Differential pressure, temperatures, vibration, etc.)

DATA ON THE GO

Empowers users with the flexibility to access crucial data on the go, ensuring seamless and real-time information availability wherever they are.

Comprehensive monitoring for a wide range of applications, including but not limited to:

- Accelerometers & Vibration Meters
- Differential Air Pressure
- Dry Contact Sensors
- Humidity Sensors
- Water Detection
- Wireless AC Current Meters
- Wireless Open-Close Sensors
- Wireless Temperature Sensors
